

Yoyo Line

Suspended elegance

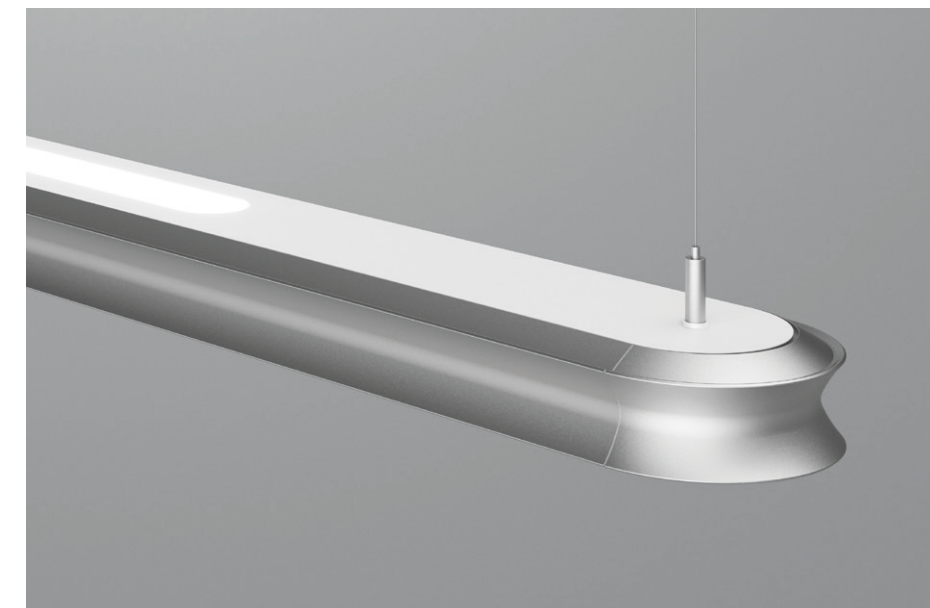

Product: Yoyo Line — Black RAL 9005

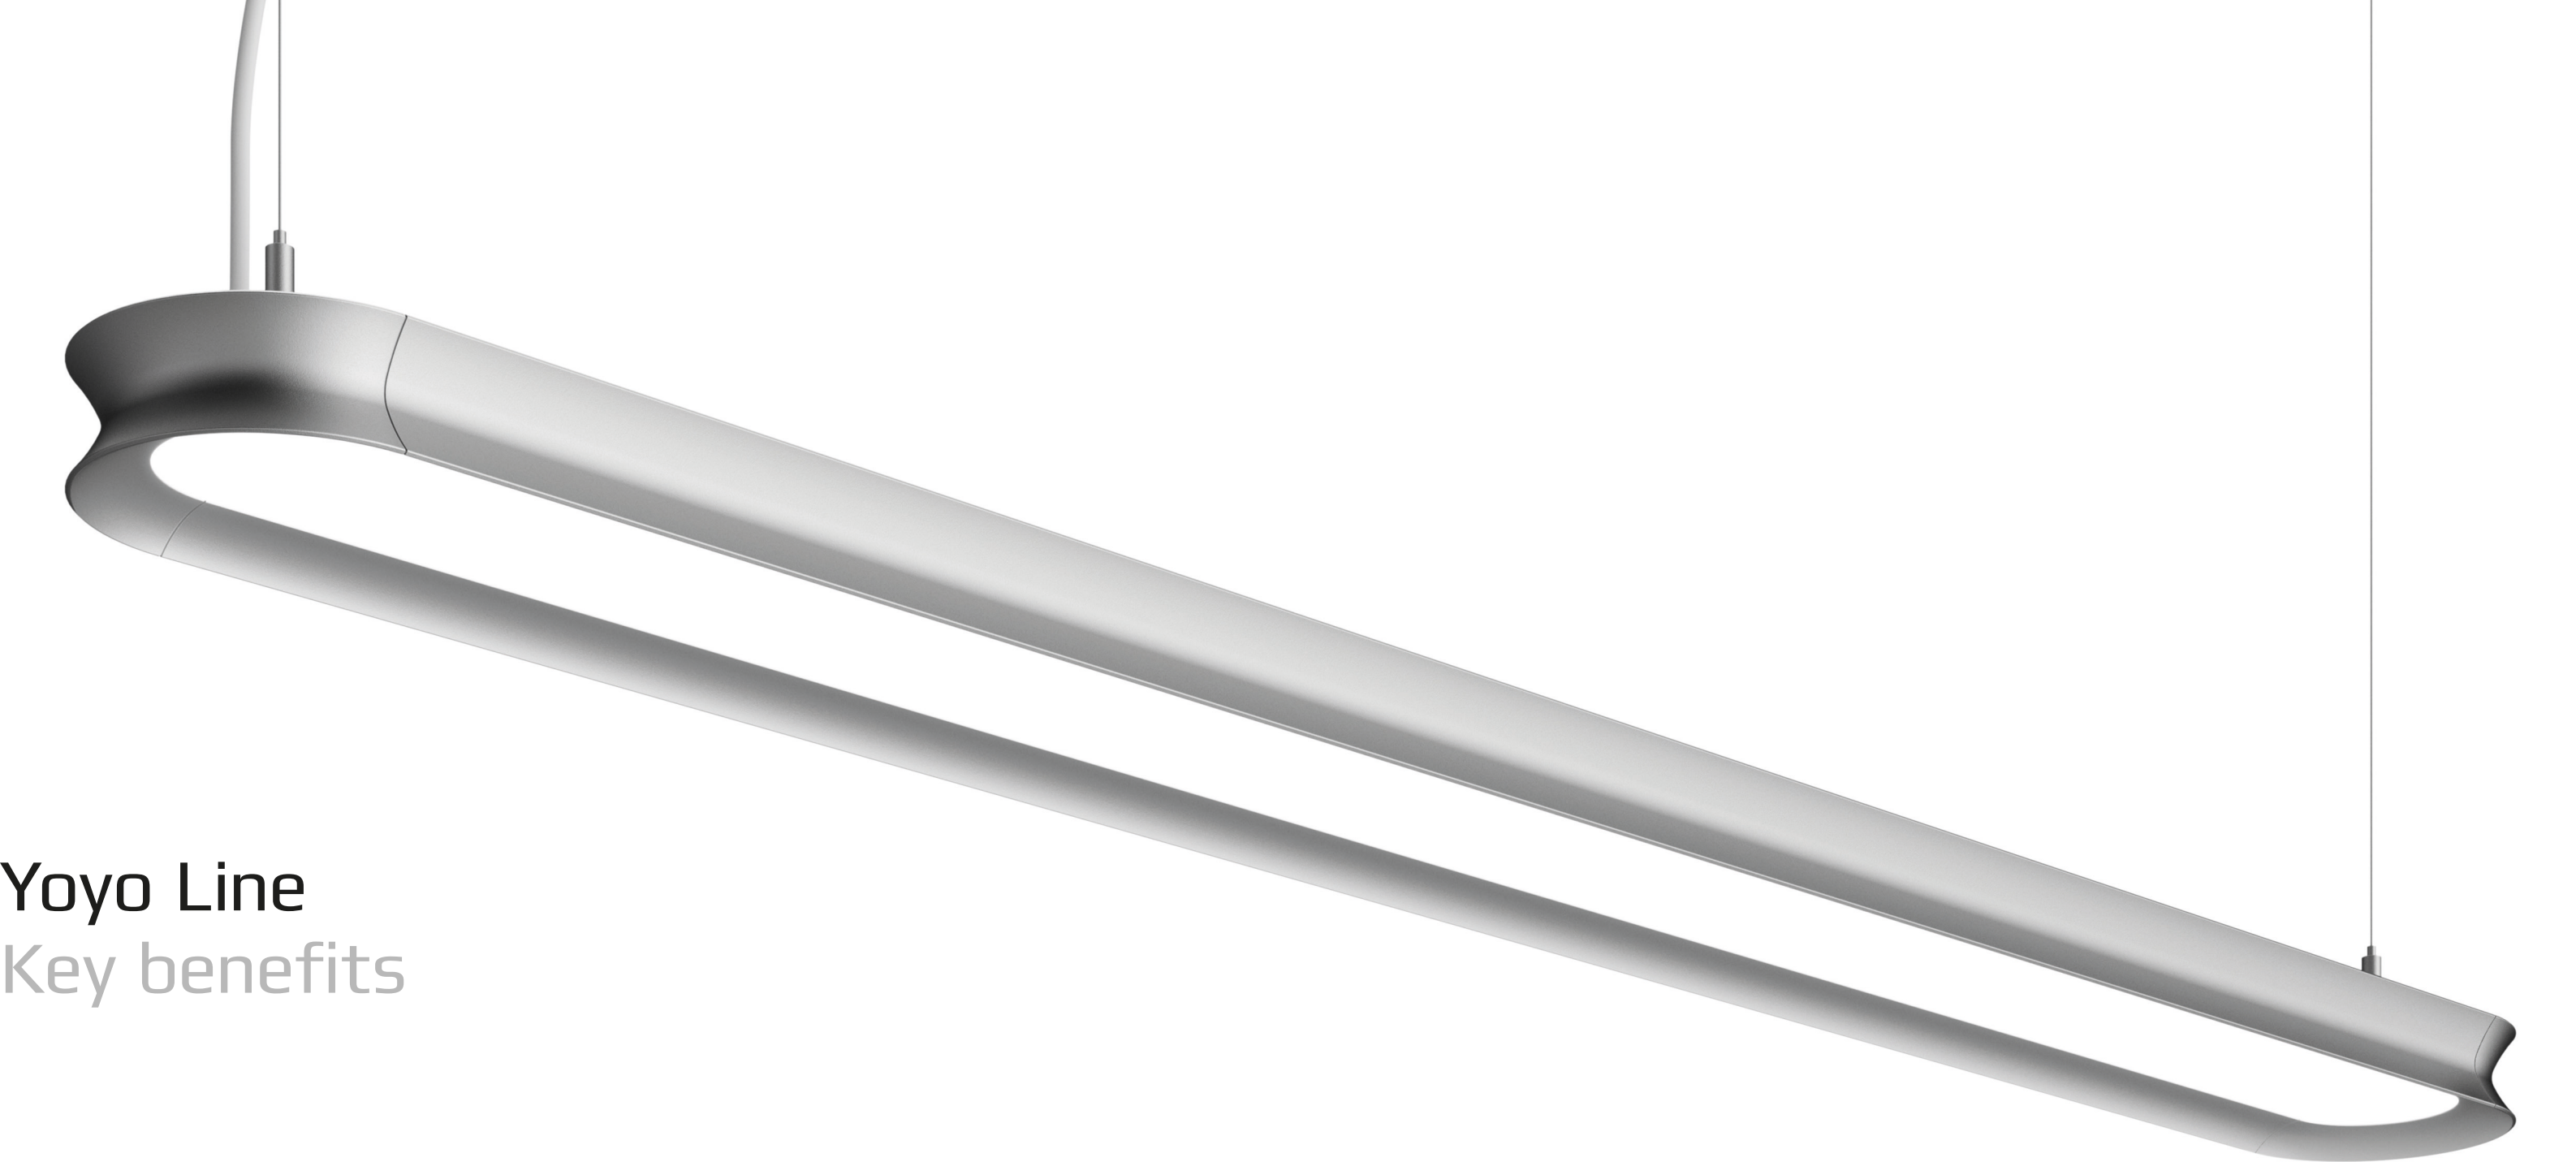

Design: C.F. Møller Architects

Yoyo Line adds a new dimension and potential to the successful Yoyo series with its elegant, sculptural and floating form. The elongated and curved profile creates a sophisticated expression, while the design balances aesthetics and functionality. The design offers a large choice of options to meet the unique requirements of individual projects.

YOYO LINE

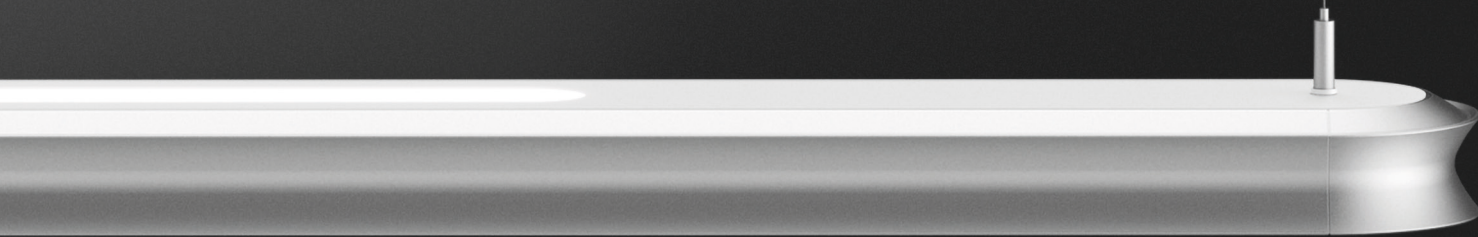

Yoyo Line

Key benefits

Aesthetic and functional design	Surface and colors	Light distribution	Warranty and guarantee

Two standard sizes, 1300 and 1900 mm	Custom color options available on request	Option of downlight only	
		A micro-prismatic shade provides soft and pleasant lighting	
		Independent control of upward and downward light via separate drivers	

Design

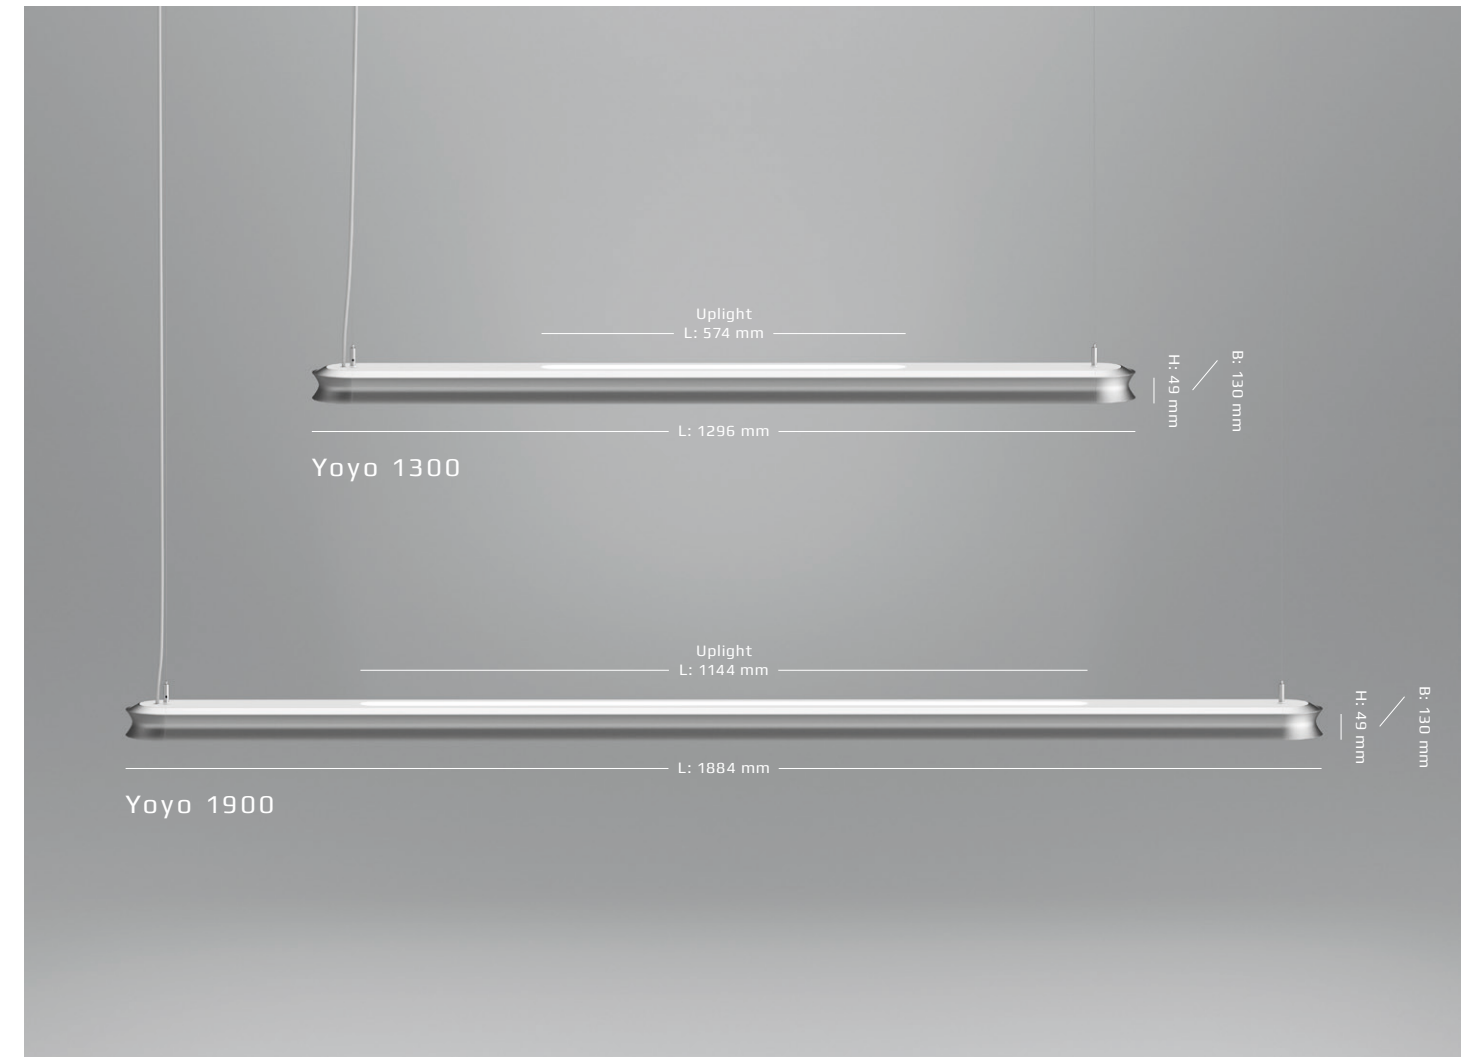

Sleek and suspended
elegance with a
sculptural touch

“Yoyo Line perfectly integrates aesthetics
and functionality through its elegant, sculptural
design and versatile lighting solutions.”

Jon Brøcker

C.F. Møller Architects

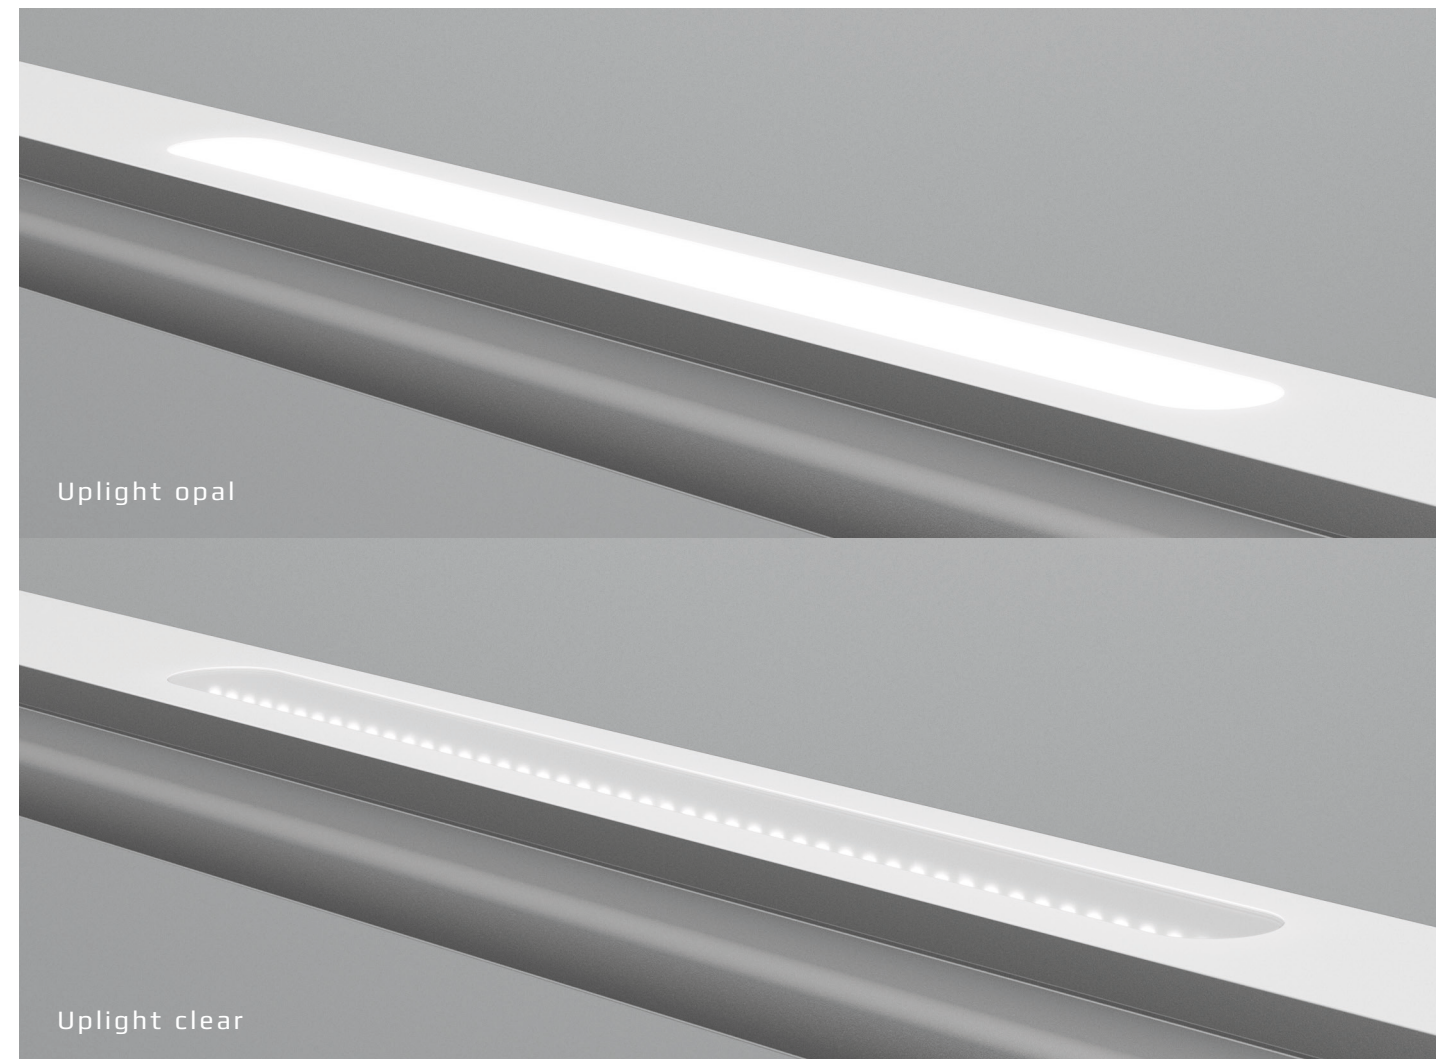

Defined by sharp profiles at both ends, the distinctive parabolic form creates a unique and sculptural look, enhancing the impression of a floating luminaire. Yoyo Line features edge-lit technology for downward lighting, complemented by a micro prismatic shade that ensures soft and comfortable lighting.

Light distribution

Innovative, soft
and comfortable

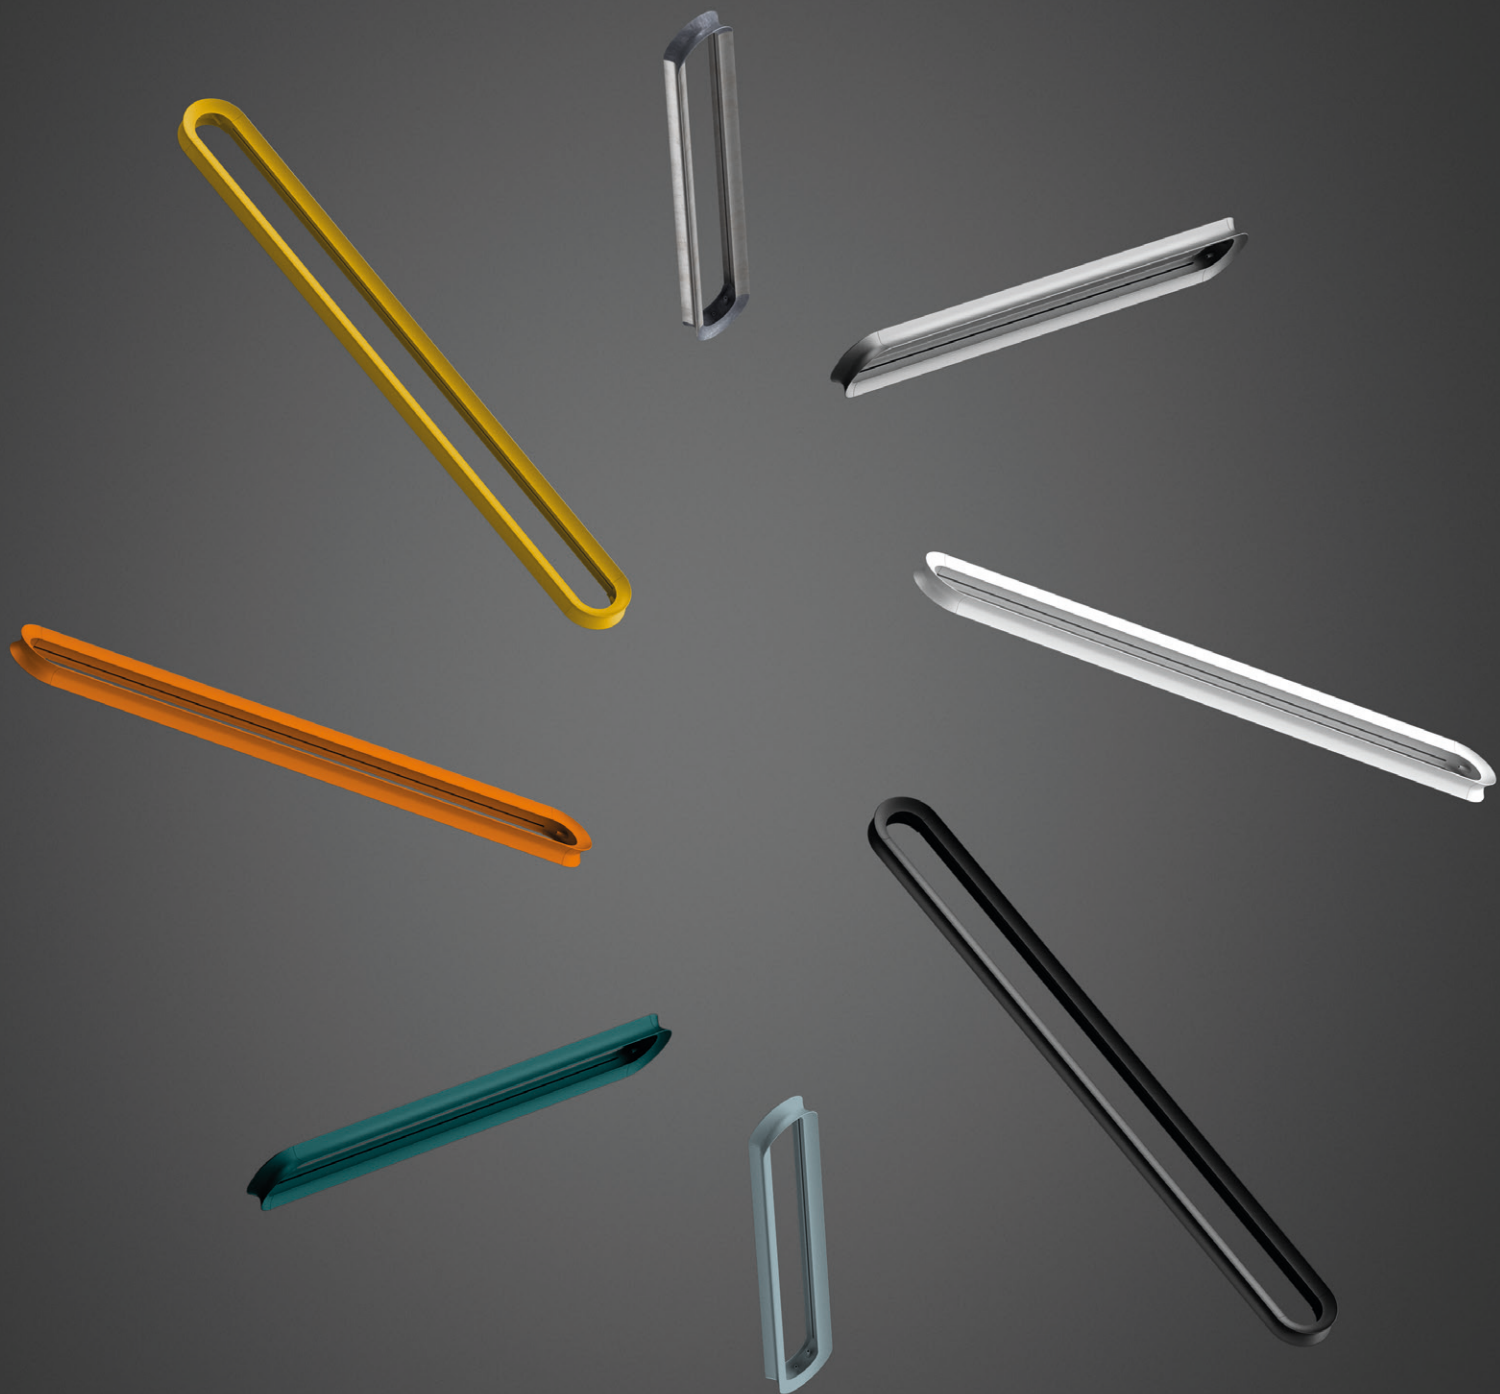

"The innovative edge lighting and glare-free diffuser create a pleasant and diffused light that is perfectly suited to both public and private spaces, inviting creative combinations of luminaires in any interior setting."

Yoyo Line is available with both opal or clear shade for uplight, each delivering excellent light distribution with minimal glare. With independent control of upward and downward light via separate drivers, Yoyo Line offers great flexibility. A downlight-only option is available. With its wide variety of options, Yoyo Line is highly adaptable to a wide range of architectural and design requirements.

Dilling

Playful harmony

Yoyo Pendant and surface mounted with uplight
Custom RAL color

At the new headquarters of Danish wool and textile company Dilling, designed by C.F. Møller Architects, Yoyo luminaires appear to float effortlessly within each space — blending playful expression with understated simplicity. By reflecting the colors of the surrounding interiors, Yoyo enhances the distinct character of each room while contributing to a calm, cohesive atmosphere through its soft and inviting light.
